

Technical Data Sheet

800ml Round-conical container 122mm

Product code: A-03683 Transparent. A-03686 with handle **Available lids:** A-00908 Transparent. A-00931 White
A-03684 White. A-03751 with handle

Description: 800ml round-conical container 122mm

Closure: Hermetic & tamper evident

Dimensions:	Capacity	800ml under lid	
	Hole dia	117mm	Ground dia 102.2mm
	Container height	98.7mm without lid	99.5mm with lid
	Lid dia	121.2mm	Lid height 9.4mm
	Container weight	28.5g	Lid weight 10.2g

Material: Polypropylene suitable for direct food contact.
The material used has good heat resistance and withstands temperatures up to 100°C for a short period of time. Notably, heat may make plastic containers become flexible, so care must be taken in relation to stacking immediately after hot filling. After cooling of the product and container it regains its original stacking strength. Standard containers made of transparent material may become brittle at temperatures below 0°C

Colours: Transparent, white. Other colours are possible upon request.

Decoration: In mould labels possible

Packing:	Standard packing: Containers: 336 units per box	Lids 1008 per box
	4 boxes per layer	4 boxes per layer
	4 layers per pallet	5 layers per pallet
	586 x 400 x 515mm	586 x 400 x 390

Box dimensions
Smaller combi packs available

Pallet Dimensions: Length: 1200mm Width: 800mm Height: 144mm Weight: 12-21kgs

Stacking: Maximum 1 pallet high. Customers should make internal trials to determine the viability of stacking and transportation once filled.

Quality: Deviations in the product specifications of 0.025% (i.e. 25 items per 100,000) are considered acceptable in the industry and therefore cannot be construed as defect. Works orders including full traceability information will be held for a minimum period of twelve months from the date of manufacture.

The material complies with the material and articles in contact regulation (EC)1935/2004, food contact plastics regulation (EU) 10/2011 and regulation (EC) 2023/2006 good manufacturing practices. The user of the product is responsible for ensuring that the finished food packaging complies with the applicable migration limits in the food itself under actual conditions of use.
