

Technical Data Sheet

900ml Oval container

Product code container: 1409 **Product code lid:** 2409

Description: 900ml oval container and lid

Closure: Tamper evident

Dimensions:	<u>Container</u>	<u>Lid</u>
Capacity	1100ml	N/A
Length	196mm	192mm
Width	129mm	125mm
Height	73mm	13.5mm
Weight	34.5g+/-5%	17g+/-5%

Material: Polypropylene suitable for direct food contact. Freezing conditions require special resins available on request. This material has a very good heat resistance and the packaging is suitable for hot filling at the temperature shown in the Declaration of Compliance, available on request. Notably, plastic packaging becomes flexible when subjected to hot filling temperatures and care must be taken when stacking immediately after hot filling.

Colours: Transparent, and white

Decoration: In mould and post mould labels possible

Units per box:	<u>Containers</u>	<u>Lid</u>	<u>Smaller combi box</u>
	384	960	144 of each

Boxes per Pallet:	12	18
--------------------------	----	----

Box dimensions	770 x 380 x 520mm	770 x 380 x 380mm	552 x 400 x 324mm
Box weight	15kg	18kg	8.285kg

Pallet Dimensions: 1200 x 800 x 225mm Weight: 12-21kgs

Stacking: Maximum 1 pallet high. Customers should make internal trials to determine the viability of stacking and transportation once filled.

Quality: Deviations in the product specifications of 0.025% (i.e. 25 items per 100,000) are considered acceptable in the industry and therefore cannot be construed as defect. Works orders including full traceability information will be held for a minimum period of twelve months from the date of manufacture.

The packaging are in compliance EU regulation 10/2011 and successive amendments relating to materials and articles intended to come into contact with food, in accordance with the EU regulation it is the responsibility of the customer to ensure that the supplied product is suitable for the intended use. The suitability of the container must be tested by the final user, based on the contents and conditions of use.
